

Firefighters busy

The Birtle Fire Department was kept busy in recent weeks. They were called to the John Prost farm located three miles west and one mile north of Birtle, on Sunday, Apr. 10 around 1:30 p.m.

Approximately 25 round hay bales had caught on fire, however, the fire was quickly brought under control and there was minimal damage.

On Monday, Apr. 11, windy conditions caused a fire at the nuisance ground to jump Highway 83 onto property owned by the Dandridges. This incident occurred around 5:30 p.m. Firefighters were able to bring the blaze under control and no serious damage was reported.
