

All in a day's work

Shoal Lake firefighter Rick Henderson carries one of many pieces of merchandise from a transport truck trailer that rolled on Highway 16 just outside of Solsgirth on Friday, April 22. Firefighters from Birtle and Shoal Lake were forced to remove general freight from the trailer in order to gain

access to drums of corrosive chemicals which were leaking. Fortunately only a minimal amount of the chemical was spilled. Firefighters were at the scene for over six hours, and the RCMP were forced to redirect traffic around the site of the mishap. *more details on page 11.*
